DOCKETED BY

RE: MOTION TO INTERVENE in the Application of Orange County Telecom & Cryptic Communications, for Certified of convenience and necessity to provide customer owned pay telephone service.

Docket No. T- 04284A-04-0771

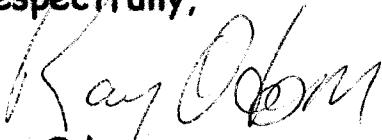

I wish to intervene in the above applications for the following reasons. According to Adam, who is with the commission Orange County Telecom (OCT) /Cryptic Communications (CC), gave false information on their application, They said that assumed pay phone lines. On 3 different locations & 4 lines were of, payphone Network of Az, (PNA) was the original owner of the lines and never assigned the lines to OCT, or any other vendor. Additionally the phones were never properly tagged with I.D. cards or ownership. Beyond that OCT, CC, induced breach of contract on the locations as well as removing PNA's equipment, its out permission, as well as lying to customers saying " we do this all the time and notify PNA to pick up their equipment" this is per

one property manager I spoke with. I'm not sure if any other companies have been effected by this OCT/ CC. This company is not a current of the Arizona Payphone Association, they were asked to join last year by our president And they declined the offer. The APA, has worked very hard to keep members updated and maintain a high level of professionalism.

The industry doe's not need companies such as OCT/ CC / Kevin Knutson. More importantly

Was a company able to order lines with no certificate on file? Now that the lines are active whose job is it to police this as well what if any are the fines involved are lines disconnected? Where/who's hands will this fall into? If this was allowed to happen what is the purpose of the commission.

Respectfully,

Ray Odom
